Bahir Dar, Ethiopia

## OBJECTIVE

To utilize my technical skills and provide a professional service to customers by applying and honing my knowledge and working in a challenging and motivating working environment.

## EDUCATION

Bahir Dar University

2023

Computer Engineering  
3.5

## EXPERIENCE

Bahir Dar University

Jun 1, 2022 - Sep 1, 2022

Internship Networking and Maintenance  
During my internship, I had the opportunity to immerse myself in the world of network installation and maintenance. The experience allowed me to gain valuable hands-on experience and expand my knowledge in this field. As a network installation intern, my responsibilities included assisting the team in setting up and configuring network systems. I learned how to install and connect routers, switches, and other networking equipment. This involved physical tasks such as running cables, mounting hardware, and ensuring proper connections. This experience helped me develop strong organizational skills and attention to detail, while also gaining a deep understanding of the importance of scalability and adaptability in network design.

## SOFT SKILLS

- Problem solving
- Critical thinking
- Creativity
- Time management
- Team work
- Collaboration

## TECHNICAL SKILLS

Node.js  
Express web framework  
Mongo Database  
SQL  
API knowledge  
Database Management

## ACHIEVEMENTS & AWARDS

IBM Developing Back-End Apps with Node.js and Express  
CCNAv7: Introduction to Networks  
CCNAv7: Switching, Routing, and Wireless Essentials  
CCNAv7: Enterprise Networking, Security, and Automation
